EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald J. Daley on April, 4, 2009.

The application has been amended as follows:

In claim 1, line 13 of the claim, deleted "in the opposite direction" and inserted -- in a direction of the arranged electrode to which positive potential is applied--.

Claim 15 is cancelled.

In claim 16, line 1 of the claim, deleted "device" and inserted --method-- and deleted "15" and inserted --1--.

In claim 17, line 1 of the claim, deleted "device" and inserted --method--, deleted "15" and inserted --1-- and deleted "metal" and inserted --metallic material--.

In claim 18, line 1 of the claim, deleted "device" and inserted --method--.

In claim 19, line 1 of the claim, deleted "device" and inserted --method-- and deleted "15" and inserted --1--.

In claim 20, line 1 of the claim, deleted "device" and inserted --method--.

In claim 21, line 1 of the claim, deleted "device" and inserted --method--, deleted "15" and inserted --1-- and deleted "wherein" and inserted --having-- and inserted --and-- before molecules.

In claim 22, line 1 of the claim, deleted "device" and inserted --method-- and deleted "15" and inserted --1--.

In claim 23, line 1 of the claim, deleted "device" and inserted --method--.

In claim 24, line 1 of the claim, deleted "device" and inserted --method--.

Claim 27 is cancelled.

In claim 28, line 1 of the claim, deleted "device" and inserted --method--.

In claim 29, line 1 of the claim, deleted "device" and inserted --method--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: figures 5 and 6 are to be labeled as 5a, 5b and 6a, 6b respectively. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: Hitchman et al. teaches the method of determining the concentration of peptides and protein with the copper electrodes wherein the copper forms a complex with desired peptide or protein. However, Hitchman et al. does not teach the bringing metallic material (copper) as result of a positive potential into the solution as positive ion in turn causing negative charge molecules to be transported. Furthermore, Hitchman is silent to the step of depositing of metal ion as metal on the measuring electrode in turn causing bound negatively charged molecules with low binding energy to be transported away from the measuring electrodes.

Hitchman et al. discloses and claims an invention of detecting of peptides and proteins with copper electrode which is slightly similar to applicant's invention.

However, a comparison of the claims of the applicant's demonstrates that the inventions are not interfering.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GURPREET KAUR whose telephone number is (571)270-7895. The examiner can normally be reached on Monday-Friday (Alternate Friday Off), 8:00-5pm EST.
